# Předmluva

V albu je **přes 200 obrázků** vysílačů a dalších radiotechnických zařízení předválečných radioamatérů Československa. Fotografie se dochovaly díky tomu, že si je amatéři vysílači vzájemně vyměňovali a pořizovali si z nich alba. Některá alba se zachovala do dnešních dnů a byla základem pro vytvoření tohoto dokumentu.

Fotografie dokazují technickou vyspělost a konstrukční dovednost našich amatérů vysílačů. V podmínkách, kdy součástky byly buď drahé, nebo vůbec nebyly v prodeji na trhu, někteří jedinci dokázali vyrobit v domácích podmínkách dokonce elektronky a další komponenty pro svůj vysílač. Předváleční radioamatéři nemalou měrou přispěli k tomu, že Československo patřilo v té době mezi nejvyspělejší průmyslové státy na světě, a za to si zaslouží naše uznaní a poděkování.

V prvním dílu alba ***Historické QSL lístky československých radioamatérů*** jsou uvedeni jednotlivci, kteří do něj přispěli, ale většina z nich přispěla také do dalších publikací, včetně této. Nejvíce se o možnost vytvořit ***Fotoalbum vysílačů předválečných radioamatérů*** zasloužili a hodně obrázků nám poskytli radioamatéři OK1AUP, OK1CF, OK1DDV, OK1DXD, OK1EP, OK1HH, OK1IVU, OK1MJA, OK1NOP, OK1PFM, OK1VXI, OK1XW, OK2BND, OK2BNT, OK2HKP, OK2BSP a OM3LU, dále příbuzní radioamatérů OK1AA, OK1AB, OK1AW, OK2JE, paní Paulína Petri z rakouského archivu <http://www.dokufunk.org> a pan Ing. Miloš Milner. Díky nim jsou fotografie trvale uloženy v internetovém archivu **Národní knihovny ČR** a zájemci si je můžou kdykoli prohlížet také mezi elektronickými publikacemi **Českého radioklubu** - <http://www.crk.cz/CZ/EBOOKSC>.

Na závěr prosíme majitele fotografií předválečných čs. amatérů vysílačů a jejich zařízení, aby nám pomohli doplnit digitální publikace **Českého radioklubu** o další obrázky a kontaktovali nás na e-mail ok1ad.dot.post.cz. Předem děkujeme za jakoukoli pomoc.

**Laco, OK1AD**
